Dasuni Geeganage

Software Engineer | AI Engineer | Master of Information Technology (Artificial Intelligence)
Sydney, Nsw, Australia | +61 432 743 299 | dasunin30@gmail.com
linkedin.com/In/dasuni-geeganage-24b677139 | github.com/dasuni-30

Software Engineer With 4.5+ Years of Experience in Frontend and Full-Stack Software Development, With A Strong Focus On React, Typescript, Javascript and User Experience. Experienced in Developing Customer-Facing Applications, Working With Rest Apis, Testing, Debugging and Collaborating Across Software Development Teams. Currently Completing A Master of Information Technology Specialising in Artificial Intelligence At Macquarie University, With Practical Experience in AI Model Evaluation, Synthetic Image Detection and Computer Vision Through An AI Engineering Internship. Looking For Software Engineering and AI Opportunities Where I Can Contribute To Real-World Products While Continuing To Develop My Technical Skills.

Languages: Javascript, Typescript, Python, Java, HTML, CSS, SQL
Frontend: React, Next.Js, Angular, Material UI, Responsive UI, UI/UX
Backend & Apis: Node.Js, REST APIs, Firebase, Stripe
AI & Machine Learning: Computer Vision, Deep Learning, Image Classification, Model Evaluation, Tensorflow, Keras
Databases: Mysql, Firebase/Firestore, Mongodb
Cloud & Tools: Aws, Azure, Git, Github, Vercel, Figma, Jira, Cypress, Prometheus, Grafana
Development: Software Testing, Debugging, Code Reviews, Agile/Scrum, Documentation

Professional Experience

AI Engineer Intern | Truuth
Aug 2026 - Present | Sydney, Australia

- Research and Evaluate AI-Generated Image Detection Approaches Using Synthetic-Image Datasets and Existing Internal Models.
- Prepare Datasets, Run Model Evaluation and Inference Workflows, Analyse Tpr/Fpr and Threshold Behaviour, and Support Retraining Experiments.
- Work With Aws S3 and Sagemaker For Data, Notebooks and Model Training Workflows.
- Support Qa Testing Before Product Releases Using Scenario-Based Testing and User-Flow Feedback.

Membership Project Intern | BioNSW
Oct 2025 - Present | Sydney, Australia

- Manage and Update Membership Information, Payment Records and Subscription Data Using Wix Cms and Stripe.
- Create Email Campaigns and Marketing Materials Using Canva.
- Resolve Website Content, Layout and Usability Issues.
- Support Event Registration, Membership Pricing Updates and Related Operational Tasks.

Full-Stack Developer | Hustlebook
Oct 2025 - Dec 2025 | Remote

- Developed and Maintained React-Based Application Features.
- Integrated Firebase/Firestore With The Application For Product and Customer Data Management.
- Integrated Stripe Payment Functionality and Worked On Secure Payment Handling.
- Identified and Resolved UI/Ux Issues and Tested End-To-End User Flows.
- Worked On Bug Fixes and Product Improvements Based On Requirements and User Needs.

Senior Software Engineer | Wso2 Inc.

Feb 2024 - Feb 2025 | Colombo, Sri Lanka

- Developed and Maintained Features For Wso2 Identity Server and Asgardeo Identity and Access Management Products.
- Worked Across The Software Development Lifecycle, Including Requirements Analysis, Development, Testing, Debugging and Documentation.
- Developed React-Based Sdk and Application Components With A Focus On Api-Based Authentication and Authorisation.
- Led Team Sync-Ups and Supported The Coordination of Development Activities Within A Small Engineering Team.
- Co-Mentored An Intern Project Focused On React Sdk Development.
- Investigated and Resolved Customer-Reported Issues Through Debugging, Root Cause Analysis and Hotfix Development.
- Worked With Sre and Customer Success Teams To Resolve High-Priority Saas Incidents and Prepare Root Cause Analyses.
- Contributed To UI/UX Discussions, Code Reviews and Technical Documentation.

Software Engineer | Wso2 Inc.

Sep 2021 - Feb 2024 | Colombo, Sri Lanka

- Developed Frontend Features and Fixed Bugs For Wso2 Identity and Access Management Products.
- Built and Maintained React/Javascript Applications Integrated With Rest Apis.
- Developed Automated Tests Using Cypress and Supported Software Quality Throughout The Development Lifecycle.
- Participated in UI Design Reviews and Code Reviews.
- Worked Closely With Engineers and Product Teams To Deliver Customer-Facing Features.
- Contributed To Developer Relations Activities Through University Technical Sessions, Technical Videos and Blog Posts.
- Presented React and Application Security Concepts To University Students As Part of Wso2 Iam Community Activities.

Software Engineer | IFS R&D International

Apr 2021 - Sep 2021 | Colombo, Sri Lanka

- Contributed To The Application Lifecycle Experience Product.
- Developed Application Features Using Angular, Bootstrap and C#.
- Worked With Azure-Based Application Components and Supported Software Development Activities.

Education

Master of Information Technology Specialising in Artificial Intelligence

Macquarie University, Sydney, Australia
Feb 2025 - Dec 2026 (Reading)

Relevant Areas: Artificial Intelligence, Data Science, Computer Vision, Intelligent Machines, AI Ethics and Law.

Bachelor of Science (Honours) in Computer Science - First Class

University of Colombo School of Computing, Sri Lanka
2017 - 2021

Final Year Project: Computer Vision / Deep Learning Using Convolutional Neural Networks, Tensorflow, Keras and Python.

Projects

Deep Fake & Synthetic Image Detection - AI Internship

- Evaluated AI-Generated Image Detection Models Using Synthetic Image Datasets.
- Worked With Datasets Generated Using Different Image Generation Techniques.
- Performed Threshold Analysis and Evaluated Model Performance Using TPR, FPR and Related Metrics.
- Used AWS S3 and Sagemaker For Dataset and Model Evaluation Workflows.

Asgardeo React Applications - Wso2

- Developed React Applications Integrating Asgardeo Authentication and Authorisation.
- Worked With React, Javascript, REST APIs and UI/UX.
- Contributed To Open-Source React Examples and Developer Documentation.

Final Year Research Project - Artificial Intelligence & Computer Vision

- Developed A Computer Vision Solution Using Convolutional Neural Networks.
- Used Python, Tensorflow and Keras For Deep Learning Experimentation and Image Classification.

Awards & Recognition

- **Google Women Techmakers Ambassador**, 2022-2023
- **Grace Hopper Celebration Scholar**, 2021
- **Google Women Techmakers Scholar**, 2019

Community & Leadership

Javascript Colombo - Co-Host & Organiser | 2024-2025
Supported The Organisation and Promotion of Javascript Community Events.

UXhangout - Co-Host | 2024-2025
Supported UI/UX Community Events and Social Media Activities.

IEEE Women in Engineering - UCSC

- Chair | 2020-2021
- Treasurer | 2019-2020
- Coordinator | 2018-2019

Organised Technical Workshops and Women-Focused Technology Events For University Students.

Work Rights: Australian Student Visa (Subclass 500). Expecting 485 in Dec. **Can work Fulltime from December**
